## LOCAL MATTERS.

To Correspondents. We are continually receiving communications on political and other matters from persons who do not attach their proper names to the articles sent; and we take this occasion of repeating that nothing can be published in The Daily News without being indorsed by some responsible individual.

----0----THE FREUNDSCHAFTSBUND this evening will give a musical and dramatic entertainment, which, from what we have learned concerning the same we doubt not will surpass even the interest and excellence of its predecessors.

---than the ammoniating fertilizer, and all who have LARGE SALE OF REAL ESTATE.- J. W. GRAY, any desire to improve their lands would act wisely Master in Equity, will sell at the Exchange, at 11 o'clock to-day, all the real estate of the late J. T. MARSHALL, consisting of eligible residences. bakery and rico plantations. This property is in good order; the plantations are in successful operation, and paying handsome dividends. The cale will be positive, and the terms are easy.

CORONER'S INQUEST .- Yesterday morning about daybreak a raisin box was discovered on the sidewalk of Calhoun street, near Pitt, containing the body of an infant about ten or twelve days old. The child was dressed in fine clothes, but was so discolored that the color was doubtful. Coroner WHITING, on being notified, promptly empanuelled a jury, who returned a verdict of death from causes unknown.

DRUG STORE.—We call attention to the advertisement, in our issue of to-day, of the re-opening of an old drug store. Mr. E. S. BURNHAM announces that he has opened at his father's old stand, and that he will be pleased to see his friends and the public. His father was well known as having done business at the present place for upwards of twenty-five years, and we trust the son will meet with the encouragement he deserves.

THE BOSTON TRADE. The steamship Geo. B. Upton, Captain Crowers, arrived last night from Basion, after the admirable run of ninety hours from wharf to wharf. This ship is growing rapidly in the public favor-both in consequence of her excellent sea-going qualities and the efficiency of her officers. She brings a full freight consigned to merchants here and the interior, and her enterprising agent, Mr. A. J. Salinas, is working with much success to increase the rapidly growing Frede between Boston and this point. The Geo. B. Upton was truit by DGNALR McKay, who, our readers know, is without a superior as a shipbnilder.

RECOVERY OF STOLEN PROPERTY.-Some weeks ago a raid was made upon certain houses in Aiken's Row and the force pumps carried off. The detectives were notified of the seizure, and went to work with their usual alacrity to trace the thieves. In this, as in nearly every instence, they were successful, and Officer Levy found the remnants of the pump in a junk shop. The keeper gave the names of the freedman from whom he had purchased the copper, and they were soon secured and lodged in jail. The pump was so batrered and broken that its identity was nearly destroyed, and was bought as old copper. Thefts of this description will become more frequent if the threezs can always find such ready disposal of their villainous profits as the junk shops afford. These thops are a general auisance, and are connected indirective with nearly every robbery of metals that takes place in the city.

MAYOR'S COURT, March 6 .- Kit Butler, a wideswake darkey, who was detected in purloining greenbacks from the back shelf of a store, by the ingenious process of reaching them with a stick with tar cr. the end, was sent to a magistrate, who will cause him for a while to tarry in jail. Abby Smith, a young female of color, who had

stolen clothes from a lady, was ordered to be closed | ent, he could with propriety answer and reiterate up for 10 days. Two individuals, who had been very drunk, but quite orderly, showing that they had partaken of only 'pure Nectar," were fined \$2 each, as an evi-

dence of the appreciation of their excellent beha-Joseph Miles, a black boy, who had committed the heinous offence of stealing newspapers, was

discharged, as the civic law records no punishment commensurate with this awful crime, and the authorities must consequently wait until an edict is pronounced by the forthcoming military tribunal. REV. JAMES A. DUNCAN, of Virginia, is expected to arrive in Lais city to-morrow. Although a stranger

in Charleston, he is well known to many of our citizens, especially to such as spent any time in Richmond during the war. Mr. Duncan, all through that period, was pastor of one of the Methodist Churches in that city, and also the editor of the Richmond Christian Advocate. He was, perhaps, the most popular preacher in Richmond, and his church (Broad street Methodist, afterwards Centenary) was always crowded. He is a man of pleasing presence, good address, remarkably the morning hours passed quickly away in the fluent, of fine mental endowments, and very superior cultivation. No wonder, therefore, that he is the favorite of young and old at every place where his ministrations may call him. We are glad that Mr. CHAPIN, the indefatigable President of the Young Men's Christian Association, hes prevailed on Mr. Duncan to spend some time with us. He is expected to preach in Trinity Church on Sunday morning next, and on Sunday night to deliver a lecture before the Young Men's Christian Association at the Citadel Square Baptist Church.

Mr. Duncan is not unknown in the upper part of South Carolina, having delivered addresses, etc., at different times, if we are not mistaken, at Spartanburg, where his father is Professor of Ancient Languages of Wofford College.

SPRING GOODS .- A life without some excitement would not be worth baving, and the calm retreats of philosophy are only read about. In the present age some little excitement is necessary to keep the system in a healthy state, and, with few exceptions, shopping answers this purpose admirably. King street is the grand thoroughfare where those cacies, in fish, flesh and fowl, -in boiled, roast, who wish to see the fashions and examine the latest styles congregate. The fair sex are there largely in the majority, and their demands for ar- pyramids were grand, and the engines, hose carticles with unpronouncable names would puzzle | riage and firemen, all made of confectionery, did any one but an experienced clerk.

There is perhaps no place on King street where there is a greater variety of goods, and where the are at the Charleston; and the company did ample latest patterns can be seen to better advantage, justice to meat and drink. than at Mr. James B. Berrs', No. 252. The store is large, light and airy, and the stock unquestionably of the newest styles of Spring goods. An evidence of this is the crowds who daily attend to select articles for Spring wear. Mr. Berrs has had a large experience in the dry goods business, and his stock is one of the most perfect in the city, and those who have delayed making their Spring purchases should do so no longer, but call at No. 252 and be supplied.

---0-DR. LORD'S LECTURE.-The lecture which was postponed from last Monday night, will be positively delivered this evening, at St. Stephen's Chapel. Dr. Lord's reputation as a pulpit orator is so extended that a large audience is confidently expected. The subject chosen is one of great interest, Bunyan's Pilgrim being almost a household companion, and any defence of his character will be listened to with marked attention.

It is rare that men like Bunyan, who have raised themselves by their own exertions, escape the slanders of their cotemporaries, but in every instance these fall harmlessly to the ground like the dirt thrown on Christian's robe. A comparison bytween "the tinker poet and the poet tinker" can but result in proving the superiority of the former, Councilman, to our city at this time, and they SYRUP. Millions of mothers can testify that it is a per-

although his antagonist may be more gifted. A Dr. Long is admirably suited to discuss these points, and perhaps no one could have been selected who would be able to give the subject such a bearing as to make it both interesting and instructive. Lectures of this description are unfortunate-Charity as the object, a full attendance is almost a natural consequence, and all who have either the

six Aldermon, were among the distinguished guests; also, the Presidents of all the Engine Companies of this city. Owing to some misunderstanding, the delegation expected from Columbia ly too rare in this city, and should be attended did not reach Charlest n in time for the dinner, whenever an opportunity offers. St. Stephen's which, of course, was a disappointment to all. The Chapel is in a central location, and with Dr. Lond entire delegation from New York were present, as the orator, the Pilgrim as the subject, and and, to all appearances enjoyed themselves very much. time or means at their disposal, and who have any liant, but entirely unreportable style, spoke next, taste for literary subjects, will lose a rare treat by and gave the following sentiment: absenting themselves. "The City of New York—The metropolis of America—the pulsations of its mighty heart is felt throughout the extent of our wide-spread country."

ALLEN & NEEDLES' AMMONIATED FERTILIZER .-Among the number of fertilizers presented to agriculturists in the past few years those of a concentrated character have been the most highly esteemed. Messrs. ALLEN & NEEDLES, the manufacturers of the ammoniated fertilizer, have applied this principle extensively to their works, and the result is a manure combining all of the invigorating qualities so needed by an impoverished earth. The factory for these manures is in Philadelphia, and the Commercial, in speaking of it, says: "Among the most extensive works in the country for the manufacture of "Super-Phosphate of Lime" and

"Fertilizer," are those of Messrs. Allen & Needles, | ply, said, that the mention of our home always located on Bichmond street, and extending an en- calls up emotions which it is not easy to express; tire square through to Beach street, below Plum. but they are associated this evening with matters having a storage capacity of over twenty thousand of less immediate concern to ourselves. We have tous! Their Super-Phosphate of Lime is manu- met this evening to welcome those who have come factored from the best Nevassa guano, of which amongst us on a mission of charity; charity in its they consumed last year twelve entire cargoes, fullost sense; not in its ordinary and merely pecuaveraging from 450 to 800 tons each. This guane, minry meaning, but that charity of feeling which or "Apelite," as it is known by chemists, when re- always meets with a hearty welcome. streets, are the agents for this fertilizer, and let-

ters or orders addressed to them will be speedily

OUR FIREMEN GUESTS .- Early yesterday morn-

ing the disastrous tidings were received of the

burning of the Andalusia, and the loss of both

boat and cargo. Aside from the mournful intelli-

gence of the loss of valued lives, the object of the

mission was frustrated by the destruction of the

hose reel intended as a present to the Independent

Fire Company of Columbia, Although this mishay

is irreparable for the present, it was not suffered

to interfere with the proposed programme, and the

guests were treated with the same courtesy and

attention that would have been offered them under

At 114 A. M. the Committee met at the corner of

Wentworth an? Meeting streets, and arranged the

disposition of the day. At 12 M. the carriages were

driven in fron' of the Charleston Hotel, and the

Committee, with their guests, were taken to the

City Hall, where they were severally introduced to

the Mayor. Several of the Presidents of the differ-

ent Fire Companies were present, and united with

the Committee in tendering a welcome to their

visitors. The reception took place in the Mayor's

Office, and as the guests entered the room they

were each introduced to the Mayor by Mr. NA

THAN. When this coremony was performed and

the guests had scated themseives, the Mayor wel-

conied tuem in a short but cordial speech, express-

ing his sympathy with their calling and mission,

and regret that the result was frustrated. He

Gentlemen: I welcome you with pleasure to the city of Charleston; and although I regret the sad occurrence that has provented you from making the present which you intended, I am glad that it has not been of such a nature as to interrupt the

ospitable festivities in which it is our pleasure to

Mr. Wilson, the President of the New York Fire

In behalf of the New York Volunteer Firemen's

Association, I thank you very much for the cordial reception, so much beyond our expectations, which you have accorded us. We are but is few simple remen, on a mission to our brother firemen of Columbia, to show them a little attention in testimony of our admiration and brotherly love. We

had, however, a higher and nobler object than the mere presentation of a testimenial. It; was to ex-tend to them and to you the right hand or fellow-

ship and fraternal regard. I hope that in the future

ship and fractrial regard. I hope that it the legal we shall be able to give them evan a more substantial evidence of our love from our brother firemen and fellow-countrymen than if our present intention had been carried out. Allow me, again, to

tender you our insufficient but sincere thanks for the grateful welcome which we have received.

The company then adjourned to the Council

Chamber and examined the different paintings and

decorations, but a tray with goblets soon drew

their attention to spiritual subjects, and the pop-

-ine of champagne corks almost drowned the

sound of conversation. The opening toast was

given by the Mayor, who offered as his senti-

March 5 3 No. 102 Fast Eay. or the dictates of mercy and humanity.

Responded to by Mr. EVERETT, of New York. R. S. DURYEA, Esq., then offered the 6th and st regular toast : "Our Country-Our common country, and the

Constitution of our patriot fathers, the emanation of pure patriotism, cemented by the blood of the marters of the Revolution; though assailed by faction and shaken by givil war, it must ever survive in the hearts of all true American citizens.' Responded to by Mr. Burst, of the Stonewall Fire Engine Company of Charleston, in a very eloquent manner, who, in conclusion, gave :

"The Constitution of our Fathers. When the voice of such men as our honored guests become impotent in the conneils of our country, may God protect and defend it." The next toast was to the Press, which was

answorld to by Captain Dawson, of the Mercury, who made the most telling speech of the evening, Ten o'clock having arrived, the hour when it is all important for reporters to be at "the office," and commence writing out their notes, this deponent left; sorry to part from so goodly a crowd, o pleasant a company. The doors were hospitably barred, and it was by no means easy to gain egress at se early at hour.

On the whole we are glad we assisted at this Firemen's Festival, where all passed off pleasantly, and politics was not so much as named.

A word of consolation to all who suffer from disease of the Lungs. MARSDEN'S PECTORAL Balat has been tried in nearly a million cases, always giving relief, and in the majority of instances effecting a cure. As each bottle is accompanied with a guarantee, sufferers may rest assured of the results. For sale by all druggists.

McKay & Campbell will sell this day, at their cash auction house, No. 55 Hasel street, opposite the postoffice, at 10 o'clock, new dry goods, clothing, white goods, boots and shoes, &c. LAUREY & ALEXANDER will sell this day, before their

store, No. 137 East Bay, at 10 o'clock, hams, shoulders воар, &с. MILLIGAN & Son will sell this day, at their store, No 22 Vendue Range, at 10 o'clock, mattresses, furniture

and a variety of other articles. R. M. MARSHALL & Bro. will sell this day, in front of their office, No. 33 Broad street, at 11 o'clock, a Cana dian stalliou.

A NEW YORK FARMER, of practical experience in vineyard culture, will engage in the business with a party having the necessary carital, with an ulterior view to the manufacture of wine. The capital required may be habit of setting before their guests—(not so very graduated to correspond with the extent to which i would be advisable to go, and used at intervals. If the business be conducted with due regard to the conditions essential to success, it will pay soon and well.

The disorganization of labor demands a change in agricultural pursuits, and probably in no direction does it point with better prospects than to wine growing. Grape culture in the Northern States is attended with so much uncertainty, in consequence of the severe winters, that it is yet doubtful if it can be made an interes of any considerable importance beyond speculating in hardy varieties. In the light of this experience, South Carolina may seize the prize, as some compensation for the wrongs tufficted on her by fanaticism in the cause of a false humanity. In the change demanded, the upland planters or farmers will find grape culture a substitute for their chief staple, which requires but trifling labor, and vastly more profitable. This is no patent way to get rich, nor yet is it a temptation to speculate in illusions with a promise of fabulous results; but, as the "early bird catches the worm," so the first to enter this unbounded field of labor will be the first to participate with justice in the largest measure of whatever is valu-

able in the legitimate pursuits of life. Inquiries may be made to the Editors of this paper, and to RICHARD DALLY, care of JOHN W. CALD-WELL, No. 58 Beaver street, New York.

E. FRANK COE'S

BONE DUST MANURE.

WE BEG TO CALL THE ATTENTION OF PLANT-ERS to the above as a superior manure for either Corn or Cotton, the experience of last year proving it equal if not superior to Peruvian Guano. The following is the report of an analysis made from a lot now in store:

Phosphate of Lime, soluble. 8.20
Phosphate of Lime, insoluble. 28.80

Sulphate of Lime and traces of Sulphate of

Sulphate of Lime and traces of Sulphate of Ammonia, Potash, Soda and Magnesia, with some free Sulphuric Acid, about....

Hygrometic Water expelled at 212 degroes...

Combined Water (a portion of this belongs to the Phosphate of Lime, which was estimated after its ignition; the greater part of balance is doubtless associated with the Animal Matter) and Asimal Matter...

The Animal Matter, as might be supposed in a fertilizer so largely derived from fish, is less highly nitrogenized than that in the Peruvian Guano. Still it will afford, du-

ring the process of decomposition, about three per cent.
of Ammonia. The Oil (which is remarkably abundant)

hore associated with other less stable animal principles, cannot fall of adding to the value of the mixture, especially on light soils. The insoluble Phosphate being thyroughly organized and, at the same time, minutely divided, is also well adapted to a gradual appropriation by

and Bennettsville papers will copy for one mouth.

March 2 BAUGH'S

# RAW-BONE PHOSPHATE.

THE AGENT FOR THE ABOVE MANURE.

A last year submitted to Professor Shepard, of the South Carolina Medical College, a sample for analysis, and, with his endorsement, recommended it to my planting friends. I am now pleased to say that their practical experience fully confirms the Professor's opinion of its value as a manure.

The best evidence that the results of its use on cotton last year were satisfactory lies in the feet that the ton last year were satisfactory lies in the fact that those who then used it are this year buying it again, and in increased amounts.

A cargo of BAUGH'S RAW-BONE PHOSPHATE is now in transit for this port, and, in conformity with my uni-A cargo of baught's RAW-BORE PROSERRIES how in transit for this port, and, in conformity with my uniform rule, it will be sampled and analyzed by Professor Shepard upon arrival. The manufacturers have, however, placed in my hands an analysis of the cargo, made by Professor Williams, 'f Philadelphia, which shows the standard of the MANURE to be fully up to that of last The following is the report of Professor Williams, re-PHILADELPHIA, January 22, 1867. Messrs. Baugh d: Sons:
Genzlemen: I have analyzed the sample of your Super-Phosphate handed me some days since, and find it to be composed as follows: Moisture at 212 degrees Fahrenheit...... 4.69 per cent Combined Organic Matter 23.14 per cent. Yielding Ammonia 3.62 per cent. Bone Phosphate of Lime 42.83 per cent. Yielding Phosphoric Acid 19.62 per cent. Other ingredients not estimated.)

The per centage amount of Ammonia is very much greater than that obtained from most Super-Phosphates I have examined, and this, in connection with the readiv soluble condition of the Bone Phosphate when acted upon by weak acids—for instance, Carbonic Acid—will account for the markedly avorable results which have been obtained from the application of your fertilizer. Respectfully,
CHARLES P. WILLIAMS, Analytical and Consulting Chemist J. N. ROBSON,

AGENT FOR THE MANUFACTURERS,
